***BBB Accredited since  
December 2003***

*Mary Dorval, Judy Craft, & Becky Locknane*

Milestone Realty is celebrating a "milestone" this year....in October, the business celebrated its fifth anniversary! Principal broker Judy Craft says she is proud to support the Better Business Bureau through Accreditation because of the consumer and business protection the BBB provides. "The community needs that service," Craft says. "The BBB is fair to all parties in resolving disputes, and the public needs that voice."

Managing broker Becky Locknane agrees. "Belonging to the BBB is absolutely a benefit, because it lets the public know that our employees are going to do the right thing." This is more important than ever, she notes, due to all the stories in the news media about homeowners facing foreclosures after being lured into bad loans by various companies.

Milestone Office Manager Mary Dorval says Milestone has had its ups and downs in the market like other businesses, but has remained profitable. She is glad that potential clients can check out Milestone's reputation with the BBB, online and by phone. "It lets the public know that our company is reputable, and an ethical business they can trust to help them find their next home."

147 agents represent Milestone and its properties all through central Kentucky. Judy Craft says Milestone is a full service real estate agency, and second in the marketplace for the past 3 years, she is proud to say. "Milestone Realty does business the right way. It's a natural fit for us to belong to the BBB."
